**AFTER YOUR APPOINTMENT**

Follow up Instructions:

---

---

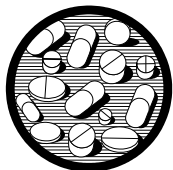

---

**Test Results:** You will be contacted in the next two weeks if your test results are abnormal and require a change in your plan of care. If you are not contacted, your test results will be discussed with you at your next appointment.

If you would like the results of your tests prior to your next appointment, please call **414-755-8320**. After leaving your request on this voice mail system, we will obtain your test results and your physician will call you back on his/her next scheduled clinic day. You may be asked to schedule a follow up appointment with the doctor to go over the results.

**Prescription Renewal:** If you are out of refills for your medication and forgot to get them at your appointment please call the voicemail system at **414-755-8312** approximately 1-2 weeks before your next refill is needed and follow the prompts.

Your chart will then be obtained and on your doctors next scheduled day your prescription will be called to your pharmacy. We will try our best to assist you with short notice requests. Your physician's office hours and days of availability may not allow for immediate renewals. You will receive a call if there are questions with the request; otherwise, please check with the pharmacy to find out when your refill is ready.

- **Sample Medications:** We prefer you make an appointment with your physician to receive sample medications. This is the safest way to dispense sample medications. The appointment desk number is 414-755-8310.

**Questions?:** Please call the reception desk at 414-755-8310 and ask to speak to a nurse. If the nurse is with patients then the reception desk will take a message and a nurse will call you back before the end of the day.

## **BEFORE YOUR NEXT APPOINTMENT**

**Medication List:** As we continue to strive to provide you with the best and safest care possible, Wisconsin Health Fund will need to update your medication list at every visit to a WHF physician. To help keep your medication list current, please bring your medication vials or a detailed list of your medication to each visit. The accuracy of our information is based on the information you provide to us. We also need to list any over the counter medications, herbal supplements, and vitamins you may be taking.

**We believe your appointment time is your time with the doctor and would like to be certain you are ready to be seen by your physician at your appointment time**

**For a follow up appointment:** Please arrive at least 15 minutes before your scheduled appointment. This will allow you time to check in at the front desk and have a member of the nursing service staff check your vitals signs, review your medications, and get a brief history before your appointment time.

**For a physical appointment:** Please arrive 20-30 minutes prior to your appointment time. This will allow you time to update your paperwork and health information for your record.

**If you have asthma,** please bring your peak flow meter and records, including your action plan.

**If you have diabetes,** please bring in your blood sugar record

**If you were seen outside of Wisconsin Health Fund** for testing, emergency room care, urgent care, or specialty appointment, please bring in a copy of your records or X-rays from your visit so your record is updated.
